FSC Certified - Marine Grade Plywood - BS 6566

Marine-grade plywood is a hardwood plywood bonded with exterior-grade adhesive and manufactured to meet British Standards 6566. It is a durable, high-strength plywood with very minimal voids, making it ideal for marine applications with the less expensive option to BS1088

Veneer Cut	R/C, WPF
Size	48"x 96" , 48.5"x96.5"
Thickness	21MM,18MM,15MM,12MM,9MM,6MM,4MM
Grade	BS 6566 B / BB
Core	100 % Meranti
Calibration	+/- .3
Moisture	<10%
Origin	Malaysia
Certification	CARB Phase 2 , TSCA TITLE VI
Finish	Raw
Glue Type	Exterior -WBP
Face Veneer Thickness	Red Meranti 1.2 MM
Sanding	240 Grit Finish

FSC Certified -Marine Grade Plywood - BS 6566 Features

- ❖ Uniform, Light Red Meranti face and core veneers.
- ❖ Very high nailing and screwing strength.
- ❖ High Bonding strength -No Delamination.
- ❖ Thickness tolerance as per international plywood standards (IWPA,HPVA).
- ❖ Maintains Perfect structure , No warping issues.
- ❖ Very Minimal Core voids
- ❖ Flat & smooth Surface for laminating
- ❖ Exterior Glue for High moisture environments
- ❖ Veneers have a uniform grain pattern, and the boards can be sanded smoothly on both sides
- ❖ Perfect for CNC machining applications

Thickness	No of Plies	Sheet/Crate	Weight/Sheet
4	3	175	22 Lbs
6	5	140	32 Lbs
9	5	95	50 Lbs
12	7	70	64 Lbs
15	9	58	70 Lbs
18	11	48	78 Lbs
21	13	45	85 Lbs
